

Evanildo Daniel Jibambo Simango

Junior Data Analyst

ivansimango02@gmail.com | +91 704 655 1952 | Mozambican National | Open to Relocation

PROFESSIONAL SUMMARY

Results-driven Junior Data Analyst with a Bachelor of Computer Applications and hands-on experience turning raw data into actionable business insights. Proven track record of supporting sales growth through data-driven decisions in real estate and e-commerce environments. Experienced in building dashboards, analysing advertising performance, and communicating findings clearly to non-technical stakeholders.

TECHNICAL SKILLS

Data Visualisation	Power BI, Microsoft Excel (Pivot Tables, Charts)
Data Analysis	Python (basic), Google Sheets, Statistical Analysis
Database	SQL, MySQL, Google BigQuery
Advertising Analytics	Meta Ads Manager, Campaign Performance Analysis
Reporting	Dashboard Building, Executive Reports, Data Storytelling
Other	Git/GitHub, API Data Fetching, Firebase (NoSQL)

PROFESSIONAL EXPERIENCE

Marketing & IT Adviser — Data & Analytics Focus

Sharma Real Estate | Vadodara, India | 2024 – 2025

- Built and maintained sales performance dashboards using Power BI and Excel, enabling leadership to monitor KPIs in real time
- Analysed property sales data and identified trends that directly contributed to increased conversion rates
- Tracked and optimised digital marketing campaigns, reallocating budget towards higher-performing channels based on data
- Created weekly and monthly reports presenting data insights clearly to non-technical management
- Managed and analysed client databases to identify patterns and support targeted outreach strategies

Freelance Data & Web Analyst

Self-employed | Remote | 2023 – Present

- Delivered data analysis and reporting solutions for individual clients across multiple industries
- Analysed Meta Ads performance data (reach, CTR, ROAS, conversions) and provided optimisation recommendations
- Built custom Excel and Google Sheets dashboards to track business KPIs for small business clients
- Used SQL and BigQuery to query and structure client datasets for reporting purposes
- Communicated complex findings through clear visual reports tailored to non-technical audiences

PROJECTS

QuickMoz — Marketplace Analytics Dashboard

Flutter | Django | Firebase | Power BI — Live service marketplace, Mozambican market

- Designed and built an internal analytics dashboard for a live service marketplace operating in Mozambique
- Tracked key metrics including user activity, service transactions, and platform growth
- Analysed user behaviour data to identify bottlenecks and inform product decisions
- End-to-end data workflow: from collection (Firebase) to visualisation (Power BI)

Meta Ads Performance Analysis

Meta Ads Manager | Excel — Freelance clients

- Conducted in-depth analysis of advertising campaigns across multiple client accounts
- Identified underperforming ad sets and delivered data-backed optimisation reports
