

Evanildo Daniel Jibambo Simango

Junior Software Engineer

ivansimango02@gmail.com | +91 704 655 1952 | Mozambican National | Open to Relocation

PROFESSIONAL SUMMARY

Motivated Junior Software Engineer with a Bachelor of Computer Applications and proven experience building full-stack applications from the ground up. Sole developer of QuickMoz, a live service marketplace operating in the Mozambican market, built with Flutter, Django, and Firebase. Hands-on experience across mobile, web, and backend development, with a strong ability to deliver complete, production-ready solutions independently. Eager to contribute to a collaborative engineering team.

TECHNICAL SKILLS

Languages	Python, JavaScript, PHP, Dart
Frontend	React, Flutter, HTML5, CSS3, Tailwind CSS
Backend	Django, FastAPI, Node.js, REST API Development
Mobile	Flutter, React Native, Android Studio / Kotlin
CMS	WordPress (custom themes, plugins, PHP), WooCommerce
Database	Firebase, MySQL, SQLite
Tools	Git/GitHub, Figma, VS Code, Vibe Coding (AI-assisted development)

PROFESSIONAL EXPERIENCE

Marketing & IT Adviser — Software & Systems

Sharma Real Estate | Vadodara, India | 2024 – 2025

- Developed and maintained internal digital tools and systems to support sales and marketing operations
- Built and customised WordPress solutions including custom plugins and API integrations for the company website
- Designed and implemented dashboards using Power BI and Excel for real-time KPI monitoring
- Advised on technology adoption and led implementation of software solutions to streamline workflows
- Managed databases and automated reporting processes to reduce manual workload

Freelance Software Developer

Self-employed | Remote | 2023 – Present

- Designed and developed custom WordPress websites and WooCommerce stores with PHP customisations
- Built custom themes and plugins from scratch, and integrated third-party APIs based on client requirements
- Developed web and mobile applications using React, Flutter, and React Native for individual clients
- Delivered AI-assisted applications using vibe coding methodologies, reducing development time significantly
- Managed full project lifecycle from requirements gathering to deployment and client handover

PROJECTS

QuickMoz — Full Stack Service Marketplace

Flutter | Django | Firebase | REST API — Live product, Mozambican market

- Sole developer — designed, built, and deployed a complete service marketplace from scratch
- Built cross-platform mobile frontend with Flutter and backend API with Django
- Implemented real-time features, authentication, and data management using Firebase
- Developed and integrated internal analytics dashboard to track users, transactions, and growth metrics
- Currently live and serving real users in the Mozambican market

WordPress & WooCommerce Development

PHP | WordPress | WooCommerce | REST API — Multiple freelance clients

- Developed multiple client websites with custom PHP themes and plugins built from scratch
- Integrated external APIs and payment gateways into WooCommerce stores
- Customised e-commerce flows and automated processes based on specific client needs
