

Evanildo Daniel Jibambo Simango

Junior Frontend Developer

ivansimango02@gmail.com | +91 704 655 1952 | Mozambican National | Open to Relocation

PROFESSIONAL SUMMARY

Creative and detail-oriented Junior Frontend Developer with hands-on experience building responsive, user-friendly interfaces across web and mobile platforms. Designed and developed the complete UI for QuickMoz, a live service marketplace in Mozambique, from Figma prototype to production. Experienced in delivering polished frontend solutions for real clients through freelance work, with a strong eye for design and a passion for clean, performant code.

TECHNICAL SKILLS

Core	HTML5, CSS3, JavaScript
Frameworks	React, Flutter (mobile UI)
Styling	CSS Animations, Responsive Design, Mobile First
Design	Figma (UI/UX prototyping, wireframing)
CMS	WordPress, Elementor, WooCommerce (custom themes)
Integration	REST API consumption, Firebase
Tools	Git/GitHub, VS Code, Vibe Coding (AI-assisted development)

PROFESSIONAL EXPERIENCE

Marketing & IT Adviser — Web & Digital

Sharma Real Estate | Vadodara, India | 2024 – 2025

- Built and maintained the company website with a focus on user experience and visual consistency
- Designed and implemented landing pages and digital marketing assets for property campaigns
- Customised WordPress themes and integrated plugins to match brand requirements
- Created responsive layouts ensuring consistent experience across desktop and mobile devices
- Collaborated with the marketing team to translate campaign ideas into functional web pages

Freelance Frontend Developer & Web Designer

Self-employed | Remote | 2023 – Present

- Designed and developed multiple client websites from Figma mockup to live deployment
- Built custom WordPress themes and Elementor layouts tailored to each client's brand and goals
- Developed responsive, mobile-first interfaces ensuring cross-device compatibility
- Integrated REST APIs into frontend projects to deliver dynamic, data-driven user experiences
- Delivered projects end-to-end including design, development, testing, and client handover

PROJECTS

QuickMoz — UI/UX Design & Frontend Development

Flutter | Figma | Firebase | REST API — Live service marketplace, Mozambican market

- Sole designer and frontend developer — created full UI/UX from initial Figma prototype to production
- Built a cross-platform mobile interface with Flutter, ensuring smooth and intuitive user experience
- Designed reusable UI components and consistent design system across the entire application
- Integrated backend REST API and real-time Firebase data into the frontend seamlessly
- Currently live and serving real users in the Mozambican market

Ivan Web Design — Personal Business Landing Page

HTML5 | CSS3 | CSS Animations — Personal project

- Designed and built a fully custom landing page for a personal web design business
- Implemented CSS animations and transitions to create an engaging, modern user experience
- Optimised for mobile responsiveness and fast load performance
